## WHO WE ARE

Absolute Liberation FX Ltd. is a Danish fintech firm democratizing access to Forex, exclusively focused on trading Gold (XAU/USD) via a proven MT5 strategy. We co-invest alongside our partners, starting every partnership with \$50,000 of our own capital to align our success with our community.

With entry points from just \$5, we empower small-scale investors to pursue financial liberation through a transparent, disciplined, and community-driven pathway to long-term independence.

## ■ OUR PRINCIPLES ■

### ■ Be Reliable

■ We ensure all investment contracts are settled fairly, accurately, and promptly by pricing them with reliable data feeds and transparent methodologies, building client trust in our platform. Deposits and withdrawals are processed quickly and securely through our seamless cashier systems, ensuring efficient execution without unnecessary delay. Additionally, we provide helpful 24/7 customer support via Email, WhatsApp, and Telegram, with professionally trained agents offering clear and relevant assistance at all times.

### ■ Be Fair

■ We treat all customers equitably, regardless of location or account size. All complaints are handled with integrity, resolved promptly and fairly with honesty and accountability. We uphold full transparency with no hidden costs, clearly disclosing all fees. Furthermore, there are no artificial barriers to withdrawals, allowing customers to freely access their legitimate profits and balances when no fraud concerns exist.

## OUR PRINCIPLES

### Be Transparent

We communicate in clear, straightforward language to eliminate ambiguity across all services. Additionally, we are fully transparent about our revenue model, openly disclosing how we make money, including when we act as a counterparty or portfolio manager.

### Be Responsible

We reject hard-selling and use only ethical marketing without exaggerated claims. Our platform protects vulnerable individuals by preventing underage access and identifying customers investing beyond their means. We also implement strong internal controls and monitoring to prevent fraud, money laundering, and all other unlawful activities.
